SCOTT'S LITTLE GIANT CORN AND COB

THERE are features connected with this Mill worthy of
consideration and close examination on the part of
those wishing to purchase a Feed Mill.

Its mechanical construction and adaptation to the purposes designed, to crush and grind ear corn. Its great ca-

pacity, while doing an immense work with extraordinary case, its carability is amply provided for. The complete and entire portableness of the Little Giant, rendering its and cotire portableness of the Little Giant, rendering its greater convenience for plantation and farm use impossible. It requires no mechanical aid or bill of expense to put it up; any farm hand or servant can put up and set one rusping in half an hours time. The convenience with which the sweep may be applied to run horizontal—as is most usual—or over head, and the mill may be easily attached where steam or water is used. The power it takes, requiring one and two horses. The quantity and quality of product, 18 to 30 bushels of good feed meal per hour, according to the degree of fineness ground, and the size mill. It is the cheapest mill, all things considered, there is before the public.

is before the public.

Another thing connected with the Little Giant, as a patent, and worthy of note, is the fact that there has been no l'alent Right speculating or buckstering about the country, as is usual with the thousand bungling make shift implements that are got up as a trade—merely to get money by selling or palming off the patent right upon the creductors—then the machine to be abandoned by all parties as a hambug; on the other hand the Patentee and Proprietors of the Little Giant Mills, believing that they can—and determined that they will supply the Agriculturalists and Stock raisers of our country with a superior Mill, are per namently engaged in the business, and have over one hundred thousand dollars invested in the manufacture of these mills, in the East, West and South, some of these establish ments employing 60 men solely in this business. So highis before the public. mills, in the East, we'en and South, some these cash is ments employing 60 men solely in this business. So highly are these mills appreciated, that four thousand have been sold within the past eighteen months, and the heaviest and the meast extensive Manufacturers of Agricultural implements in the United States have eagerly sought an intercest in their manufacture and sale.

No implement has been more thoroughly tested; no one of the kind has received so numerous and high testimonials from Mechanics' Institutes and Agricultural Associations, nad none by reason of substantial, practical utility and misrit have more fairly ground their way into every day use and popular favor than Scott's Little Giant Corn and Ceb Mill. A NEW and Singularly successful remedy for the cure of all Billous diseases—Costiveness, Indigestion, Jaundice, Dropsey, Rheumatism, Fevers, Geat, Humors, Nervousness, Irritability, Inflaminations, Hendac Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much stekness and suffering might be prevented, if a harmless but effectual Cathartic were more freely med. No person can feel well while a costive habit of body provails; besides, it soon generates serious and often faul diseases, which might have been avoided by the timely and judicious use of a good pargative. This is alike true of Colds, Feverish symptoms, and fillious derangements; they all tend to become or produce the deep seated and formidable distempers which load he bearses all over the land. Honer a reliable family physic is of the first importance to the public hadith, and this Pill has been perfected with consummine skill to meet that demand. An extensive trial of its virtues by Physicians, Producers nown of any medicine. Cures have been effected beyond belief, were they not substitutized by persons of such exalled position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

The composition of my preparations is laid open to all men; and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wooderful medicine before its effects were known. HELMBOLD'S GENUINE PREPARATION. HELMBOLD'S HIGLY CONCENTRATED COMPOUND FLUID EXTRACT BUCHU or diseases of the Bladder and Kidneys, Secret Diseases, Strictures, Weaknesses, and all diseases of the Sexual Organs, whether is Male or Female, from whatever cause they may have originated, and no matter of how long

A once seated in the system, will surely go down from one generation to another, undermining the constitution and sapping the very vital fluids of life, do not treat yourself in the hands of Quacks, who start up every day in a city like this, and fill the papers with glaring falsehoods, too well calculated to decaye the young, and those not acquainted with their tricks. You cannot be too careful in the selection of a remedy in these cases.

The Fluid Extract Buchu has been pronounced by eminent physicians the greatest remedy ever known. It is a medicine perfectly pleasant in its taste, and very innocent medicine perfectly pleasant in its taste, and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and poisoneus virus of this dreadful disease; and, unlike other remedies, does not dry up the

disease in the blood.

Constitutional Debility, brought on by self-abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this Infallible Remedy. And as a medicine which must benethe everybody, from the simply deficate to the confined and despairing invalid, no equal is to be found acting both as a Cure and preventive.

HELMBOLD'S HIGHLY CONCENTRATED

COMPOUND FLUID EXTRACT SARSAPARILLA,

Till's article is now proscribed by some of the most distinguished physicians in the country, and has proved more efficient in practice than any preparation of Sarsaparila yet offered to the public. Several cases of secondary Syphilis, Mercurial and Scrofulous diseases have entirely recovered in the incurable wards of our Public Institutions which had for many years resisted every mode of treatment that could be devised. These cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate diseases, after the glands were destroyed, and the bones already affected.
